His Announcement that He Is with McClellan in Effort to Keep Down the Lid Arouses the Enmity of Some of the Leaders.

Charles F. Murphy clearly stated his position, as leader of Tammany Hall this afternoon when he announced that the holding down of the lid had his approval and that he was in full sympathy with Mayor McClellan's policy. He intimated that the administration is the sort of an administration that the people voted for last fall and his statement is a defiance to the Tammany leaders who think that the tight regulations regarding

gambling constitute a political mistake. This is the first time that Mr. Murphy has made a direct declaration of his stand, although it has been understood all along that he was backing up the Mayor and Commissioner McAdoo in their efforts to keep the lid down. His announcement of principles shows that he is not afraid of the Tammany leaders who rebel against the conservativeness of the admin-

STANDS BY MAYOR M'CLELLAN.

City, "the administration of Mayor McClellan has proved eminently that he is giving the city is the sort of an administration that I favor

ing Tammany Hall. A source of patronage under Tammany administrations heretofore has been the pool-room business. Good Tammany district workers have been given jobs in the pool-rooms at \$5 a day and many district leaders utilized this to pay political debts. The determination of Commissioner McAdoo and Mayor McClellan to keep new pool-rooms from opening and to restrict the operations of the old-established rooms is a hard blow to the crowd that depended upon the pool-room business for a living. HE IS KEEPING HIS PLEDGE.

It is evident from the bold stand the Tammany leader has taken that he has assurances of support from all the old-time anti-Tammany element that he drew back into the Wigwam previous to the last campaign. To these men he made a pledge that the administration of Mayor McClellan would be such as to gain the votes of all the people of New Cork desiring a liberal enforcement of the excise laws and a policy of restriction upon

It was the theory of Mr. Murphy that the chief question involved in the campaign was the foolish excise restrictions imposed by the Low administration. To-day no reasonable man can kick about liberality in this regard. Mr. Murphy appears to be determined to stand by the Mayor, and the Mayor and the Commissioner of Police appear to be determined that the lid shall be kept on so far as gambling is concerned, but left loose around the edges in the enforcement of the laws against Sunday opening

### FRENCH FLAG IS RUN UP AT NEWCHWANG.

TIENTSIN, March 29.-A Frenchman named Kreautlar, an employee of the Russo-Chinese Bank, has been appointed French consular agent at Newchwang. He has hoisted the French flag over the bank building. It is considered probable that this is a forerunner of a movement to fly the tricolor over all the Russian Government buildings at Newchwang.

ernment has no intention of protesting against the Russian action in de-claring martial law at Newchwang. An endeavor will be made in the or-dinary way after the cessation of hostilities to secure compensation and the or-British merchants as are pecuniarily affected. It has not yet been decided whether the British Consul will remain at Newchwang, but this matter is not considered to be of serious importance.

It is pointed out at the Foreign Office that neither the United States nor Great Britain ever considered Newchwang neutral, and when Secretary Hay's note was received it was tacitly admited that Newchwang might quite likely be one of the points of a Japanese attack and the Russians are considered quite within their rights in taking the necessary steps to prevent possible Japanese aggression.

American, German and other dipioniatic circles here agree with the British view, that there is no ground for complaint against Russia.
